(a) Capital Metropolitan Transportation Authority (“Capital Metro” or “the Authority”) is a public agency responsible for providing mass transit service within the City of Austin and the surrounding communities of Leander, Lago Vista, Jonestown, Manor, San Leanna, and Point Venture, as well as the unincorporated area of Travis County within Commissioner Precinct 2 and the Anderson Mill area of Williamson County. Capital Metro services include bus, rail, ride-share programs, special events services, and special transit services for the mobility impaired.

(b) Capital Metro is required by Federal Legislation, the Rail Safety Improvement Act (RSIA) of 2008, and the corresponding implementing rules promulgated by the Federal Railroad Administration (FRA) (i.e., Title 9 Code of Federal Regulation Part 236, Subpart I) to install and have operational an interoperable Positive Train Control System (PTC) by December 31st, 2018. PTC is a collision avoidance system that shall provide a first warning to train operators, through use of “integrated cab signal controls, communications, and an information system” that will intervene to stop a train before a collision or other hazardous train movement can occur. PTC refers to technology that can prevent train-to-train collisions, over-speed derailments, and casualties or injuries to roadway workers operating within their limits of authority, resulting from an unauthorized incursion by a train. The Capital Metro PTC Implementation Project will install an FRA “Type” approval PTC solution, referred to as Enhanced Automatic Train Control (E-ATC) overlaid on the CTC system. E-ATC is an automatic train control system where the train speeds and train spacing are automatically controlled using cab signal track codes which are enforced by the On-Board Computer (OBC) in the vehicle. Enforced stop codes can also be generated by the Train Dispatcher (or automatically) from the control office for work block protection or when notified about a potential unsafe situation such as a crossing warning system malfunction. Overall freight and commuter rail operation safety will be improved with the implementation of PTC (E-ATC).

(c) Herzog Transits Services, Inc (“Herzog”) provides rail operations and maintenance services to Capital Metro under contract #137666.

Before taking possession of or using any completed or partially completed Work, the Contracting Officer shall furnish the Contractor a list of items of Work remaining to be performed or corrected on those portions of the Work that the Authority intends to take possession of or use. However, failure of the Contracting Officer to list any item of Work shall not relieve the Contractor of responsibility for complying with the terms of the Contract Modification. The Authority's possession or use shall not be deemed an acceptance of any Work under the Contract Modification.

(b) While the Authority has such possession or use, the Contractor shall be relieved of the responsibility for the loss of or damage to the Work resulting from the Authority's possession or use, notwithstanding the terms of Exhibit E, Paragraph entitled "Permits". If prior possession or use by the Authority delays the progress of the Work or causes additional expense to the Contractor, an equitable adjustment shall be made in the Contract Modification Sum or the time of completion, and the Contract Modification shall be modified in writing accordingly.

The Contractor shall at all times keep the Work Site, including storage areas, free from accumulations of waste materials. Before completing the Work, the Contractor shall remove from the Work any rubbish, tools, scaffolding, equipment, and materials that are not the property of the Authority. This notice, when delivered to the Contractor or the Contractor's representative at the Work Site, shall be deemed sufficient notice of the noncompliance and corrective action required. After receiving the notice, the Contractor shall immediately take corrective action. If the Contractor fails or refuses to take corrective action promptly, the Contracting Officer may issue an order stopping all or part of the Work until satisfactory corrective action has been taken. The Contractor shall not base any claim or request for equitable adjustment for additional time or money on any stop order issued under these circumstances.

Any adjustment shall be made in accordance with Paragraph entitled "Equitable Adjustments". However, no adjustment shall be made under this Paragraph for any suspension or delay to the extent (1) that performance would have been suspended or delayed by any other cause, including the fault or negligence of the Contractor, or (2) for which an equitable adjustment is provided for or excluded under any other provision of this Contract Modification.

(c) No claim under this paragraph shall be allowed (1) for any costs incurred more than twenty (20) days before the Contractor shall have notified the Contracting Officer in writing of the act or failure to act involved (but this requirement shall not apply to a claim resulting from a suspension order), and (2) unless the claim, in an amount stated, is asserted in writing as soon as practicable after the termination of such suspension or delay, but not later than the date of final payment. No part of any claim based on the provisions of this paragraph shall be allowed if not supported by adequate evidence showing that the cost would not have been incurred but for a delay within the provisions of this paragraph.

31. AUTHORITY'S RIGHT TO CARRY OUT WORK

(a) If Contractor defaults or neglects to carry out the Work in accordance with the Contract Modification Documents and fails within a seven-day period after receipt of written notice from the Authority to commence and continue correction of such default or neglect with diligence and promptness, the Authority may, without prejudice to other remedies the Authority may have, correct such deficiencies. In such case, an appropriate adjustment shall be issued deducting from payments then or thereafter due the Contractor the reasonable cost of correcting such deficiencies, including the Authority's expenses and compensation for the A/E additional services made necessary by such default. If payments due the Contractor are not sufficient to cover such amounts, the Contractor shall pay the difference to the Authority.

(b) After the Work is completed, the Authority may make emergency repairs to the Work if necessary to prevent further damage or if the Contractor does not promptly respond to a notice of a condition requiring repairs. The Contractor shall be responsible to the Authority for this cost if the reason for the repairs is

defects in the Contractor's Work. If payments then or thereafter due the Contractor are not sufficient to cover such costs, the Contractor shall pay the difference to the Authority.

32. CHANGE ORDER ACCOUNTING

In the event that an equitable adjustment under the Paragraph entitled "Changes" cannot be agreed to in a timely manner, the Contracting Officer may issue a Change Order and require Change Order accounting. The Contractor, for each change or series of related changes, shall maintain separate accounts, by job order or other suitable accounting procedure, of all incurred, segregable, direct costs (less allocable credits) of Work, both changed and not changed, allocable to the change. The Contractor shall maintain such accounts until the parties agree to an adjustment for the changes ordered by the Contracting Officer or the matter is conclusively disposed of in accordance with Paragraph entitled "Interpretation of Contract Modification – Disputes."

33. WARRANTY

(a) Contractor warrants that the Work shall be free of patent and latent defects in design, materials, equipment, and workmanship, as measured from the requirements, criteria, standards and Specifications set forth in the Contract Modification. A defect shall be considered latent only if it is not known or disclosed to the Authority prior to Substantial Completion, of the overall Work, and such defect would not normally be discovered upon reasonable inspection and investigation in accordance with Good Industry Practice during the course of design and Construction and prior to the completion of the Work. This limited warranty also does not apply to and the Contractor shall not be responsible for, repair or replacement Work needed as a result of: (a) normal wear and tear; (b) defect caused by damage; or (c) failure by Authority to maintain, repair, or operate the Work Site in accordance with Good Industry Practice, to the extent the defect is caused by same.

Nothing set forth above or otherwise in this Contract shall restrict in any way or operate as any limitation on the right of Authority to seek damages or other remedies against Contractor for any other period under any legal or equitable theory with respect to any defects and deficiencies which are latent in nature and not readily ascertainable in the ordinary course of observation, subject, however, to any limitations imposed under governing law.

(c) Contractor shall, within fifteen (15) days after receipt of written notice hereof, commence to correct, repair and make good any defects in the Work for which said materials, equipment and workmanship are warranted, and also make good any damage to other work caused by the repairing of such defects. Contractor warrants to the Authority that such Work will be performed in a safe and careful manner and will conform to the requirements of the Contract Modification Documents. None of the work performed in correcting such defects shall be the basis of a claim for additional compensation or damages.

(d) The Contractor shall issue in writing to the Authority as a condition precedent to final payment a "General Warranty" reflecting terms and conditions of this paragraph for all work under the Contract Modification. This warranty shall specifically provide that all defects in materials and workmanship appearing during the warranty period shall be remedied to the satisfaction of the Authority at no additional cost to the Authority.

(e) The provisions of this paragraph shall survive termination of the Contract Modification.

34. INSPECTION AND TESTING OF WORK

(a) The Contractor shall maintain an adequate inspection system and perform such inspections as will

ensure that the Work conforms to Contract Modification requirements. The Contractor shall maintain complete inspection records and make them available to the Authority Immediately upon request. All Work is subject to inspection and testing by the Authority at all places and at all reasonable times before acceptance to ensure strict compliance with the terms of the Contract Modification.

- (b) Inspections and tests by the Authority are for the sole benefit of the Authority and do not:
 - (1) relieve the Contractor of responsibility for providing adequate quality control measures;
 - (1) relieve the Contractor of responsibility for damage to or loss of the material before acceptance;
 - (2) constitute or imply acceptance; or
 - (3) affect the continuing rights of the Authority after acceptance of the completed Work.
- (c) The presence or absence of an inspector from the Authority does not relieve the Contractor from any Contract Modification requirement, nor is the inspector authorized to change any term or condition of the Specifications without the Contracting Officer's written authorization.
- (d) The Contractor shall promptly furnish, without additional charge, all facilities, labor, and material reasonably needed for performing such safe and convenient inspections and tests as may be required by the Contracting Officer. The Authority may charge to the Contractor any additional cost of inspection or test when Work is not ready at the time specified by the Contractor for inspection or test, or when prior rejection makes re-inspection or retest necessary. The Authority may perform any inspections or tests in a manner that will not unnecessarily delay the Work.
- (e) The Contractor shall, without charge, replace or correct Work found by the Authority not to conform to Contract Modification requirements, unless in the public interest the Authority consents to accept the Work with an appropriate downward adjustment in Contract Modification Sum. The Contractor shall promptly segregate and remove rejected material from the Work Site.
- (f) If the Contractor does not promptly replace or correct rejected Work, the Authority may:
 - (1) by Contract Modification or otherwise, replace or correct the Work and charge the cost to the Contractor, plus an administrative fee of ten (10%) percent or,
 - (2) terminate for default the Contractor's right to proceed.
- (g) If, before acceptance of the entire Work, the Authority decides to examine already completed Work by removing it or tearing it out, the Contractor, on request, shall promptly furnish all necessary facilities, labor, and material. If the Work is found to be defective or nonconforming in any material respect due to the fault of the Contractor or its Subcontractors, the Contractor shall defray the expenses of the examination and of satisfactory reconstruction. However, if the Work is found to meet Contract Modification requirements, the Contracting Officer shall make an equitable adjustment for the additional services involved in the examination and reconstruction in accordance with Paragraph entitled "Equitable Adjustments" contained in this Exhibit E, including, if completion of the Work was thereby delayed, an extension of time.
- (h) Unless otherwise specified in the Contract Modification, the Authority shall accept, as promptly as practicable after completion and inspection, all Work required by the Contract Modification or that portion of the Work the Contracting Officer determines can be accepted separately. Subject to the provisions of Paragraph entitled "Warranty of Construction", acceptance by the Authority shall be final and conclusive except for latent defects, fraud, gross mistakes amounting to fraud, or the Authority's rights under any warranty or guarantee.

35. PRICING OF ADJUSTMENTS

When costs are a factor in any determination of an adjustment to the Contract Modification Sum pursuant to Paragraph entitled "Changes" or any other provision of this Contract Modification, such costs shall be in accordance with Cost Principles of FAR.

36. CHANGES

(a) The Contracting Officer may, at any time, without notice to the sureties, if any, by written order designated or indicated to be a Change Order, make changes in the Work within the general scope of the Contract Modification, including changes:

- (1) in the Specifications (including drawings and designs);
- (2) in the method or manner of performance of the Work;
- (3) in the facilities, equipment, materials, services, or site to be furnished by the Authority; or
- (4) directing acceleration in the performance of the Work.

(b) Any other written or oral order (which, as used in this paragraph (b), includes direction, instruction, interpretation, or determination) from the Contracting Officer that causes a change in the Contractor's obligations shall be treated as a Change Order under this paragraph; provided that the Contractor gives the Contracting Officer written notice stating (1) the date, circumstances, and source of the order and (2) that the Contractor regards the order as a Change Order.

(c) Except as provided in this clause, no order, statement, or conduct of the Contracting Officer shall be treated as a change under this paragraph or entitle the Contractor to an equitable adjustment.

(d) If any change under this paragraph causes an increase or decrease in the Contractor's cost of, or the time required for, the performance of any part of the Work under this Contract, whether or not changed by any such order, the Contracting Officer shall make an equitable adjustment and modify the Contract in writing in accordance with the provisions in paragraph entitled, "Equitable Adjustments" contained in Exhibit E. However, except for a "proposal for adjustment" (hereafter referred to as "proposal") based on defective Specifications, no proposal for any change under paragraph (b), above, shall be allowed for any costs incurred more than twenty (20) days before the Contractor gives written notice as required. In the case of defective Specifications for which the Authority is responsible, the equitable adjustment shall include the increased cost reasonably incurred by the Contractor in attempting to comply with the defective Specifications.

(e) The Contractor must submit any proposal under this paragraph within thirty (30) days after: (1) receipt of a written Change Order under paragraph (a), above, or (2) the furnishing of a written notice under paragraph (b), above, by submitting to the Contracting Officer a written statement describing the general nature and amount of the proposal, unless this period is extended by the Authority. The proposal may be included in the notice under paragraph (b), above.

(f) No proposal by the Contractor for an equitable adjustment shall be allowed if asserted after final payment under this Contract Modification.

37. EQUITABLE ADJUSTMENTS

Any requests for equitable adjustments under any provision shall be governed by the following provisions:

(a) Upon written request, the Contractor shall submit a proposal, in accordance with the requirements and limitations set forth in this Paragraph, for Work involving contemplated changes covered by the request. The proposal shall be submitted within the time limit indicated in the request for any extension of such time

limit as may be subsequently granted. The Contractor's written statement of the monetary extent of a claim for equitable adjustment shall be submitted in the following form:

(1) Proposals totaling \$5,000 or less shall be submitted in the form of a lump sum proposal with supporting information to clearly relate elements of cost with specific items of Work involved to the satisfaction of the Contracting Officer, or his/her authorized representative.

(2) For proposals in excess of \$5,000, the claim for equitable adjustment shall be submitted in the form of a lump sum proposal supported with an itemized breakdown of all increases and decreases in the Contract Modification. The itemized breakdown shall, at the least, include the items specified in subparagraph (b), below.

(b) Calculation of Direct Costs

(1) Material quantities by trades and unit costs. (Manufacturing burden associated with material fabrication performed will be considered to be part of the material costs of the fabricated item delivered to the Work Site.)

(2) Labor breakdown by trades and unit costs. (Identified with specific item of material to be placed or operation to be performed.)

(3) Construction equipment exclusively necessary for the change.

(4) Costs of preparation and/or revision to Shop Drawings resulting from the change.

(5) Employment taxes under FICA and FUTA.

(6) Bond Costs - when size of change warrants revision.

38. CALCULATION OF OVERHEAD, PROFIT AND COMMISSION

(a) The allowable overhead shall be determined in accordance with the contract Modification cost principles and procedures in the FAR, § 31.201 et seq, but in no case shall exceed the following. The percentages for profit and commission shall be negotiated and may vary according to the nature, extent and complexity of the Work involved.

(b) The Contractor or any Subcontractor shall not be allowed any commission on the allowable profit or commission of any lower-tiered Subcontractor. Equitable adjustments for deleted Work shall include credits for overhead, profit and commission. On proposals covering both increases and decreases in the amount of the Contract Modification, the application of overhead and profit shall be on the net change in direct costs for the Contractor or Subcontractor performing the Work.

39. TIME EXTENSIONS

(a) The time extensions for changes in the Work will depend upon the extent, if any, by which the changes cause delay in the completion of the various elements of construction. Any Contract Modification granting the time extension may provide that the Contract Modification date will be extended only for those specific elements so delayed and that the remaining Contract Modification completion dates for all other portions of the Work will not be altered and may further provide for an equitable readjustment of liquidated damages under the new completion schedule.

(b) The Contractor may be granted an extension of time because of changes ordered in the Contract Modification or because of any Force Majeure Event.

(c) Claims for extensions of time must be made in writing within twenty (20) calendar days after the occurrence of the delay. All time extension claims shall be supported by sufficient written evidence to justify

the claim. In the case of a continuing cause of delay, only one (1) claim is necessary. Claims for extensions of time shall be stated in numbers of whole or half calendar days.

(d) In cases of claims for extension of time because of weather, such claims will only be granted if the actual lost time exceeds the average historical climatic conditions for the preceding ten (10) years are published by the National Oceanographic and Atmospheric Administration ("NOAA") and entitled, "Local Climatological Data – Austin/Central, Texas" and only because such weather prevented the execution of major critical times of Work. Time extensions granted under this subparagraph for weather are not compensable.

(e) Although the Authority may extend Contract Time for justifiable reasons, the Contractor shall bear all responsibility for financial risks, which may accrue, from various causes of delay in Construction progress. However, for delays caused by failure of the Architect/Engineer or the Authority to make timely decisions or to take timely action, a claim for additional costs will be considered.

(f) The Contract Term for the completion of Work is an essential element of the Contract Modification. Contractor's failure to complete the Work within such time will cause damage to the Authority.

(g) Should the Contractor fail to complete the Work within the Contract Modification Term, including all officially approved extensions thereto, the Authority may collect from the Contractor or deduct from any funds owed Contractor an amount not to exceed the actual damages caused by such delay.

Material delivered to the Contractor at locations other than the Work Site may also be taken into consideration if consideration is specifically authorized by this Contract Modification and the Contractor furnishes satisfactory evidence that it has acquired title to such material and that the material will be used to perform this Contract Modification.

(d) In making these progress payments, there shall be retained five percent (5%) of the estimated amount until final completion and acceptance of the Work by the Authority. However, if the Contracting

In the event an overpayment is made to the Contractor under this Contract Modification, the Contractor shall remit the full overpayment amount to the Authority within thirty (30) calendar days of the date of the written notice of such overpayment or such other period as the Authority may agree. (b) The Authority qualifies for exemption from State and Local Sales and Use Taxes pursuant to the provisions of the Texas Limited Sales, Excise and Use Tax Act (Taxation – General, Article 20.04, Texas Civil Statutes). The Contractor may claim exemption from payment of applicable State taxes by complying with such procedures as may be prescribed by the State Comptroller of Public Accounts. (d) All laborers and mechanics working upon the Work for this Project shall be paid unconditionally and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by Secretary of Labor under the Copeland Act, Title 29 CFR, Part 3) full wages accrued and when due, computed at rates not less than wage rates bound herein pertaining to type of Work being performed. When Work is of such a nature that both Building and Highway Heavy wage

scales are incorporated into contract, Contractor shall pay wage rates to mechanics or laborers performing Work in

more than one classification at the rate indicated for each classification for time actually worked as determined by area practice applicable to type (Site Construction Crafts or Building Construction Crafts) of Work being performed without regards to skill. Salaried specialists project superintendent and administrative personnel only) in the permanent employment of Contractor do not fall under any Wage Classification. Contractor shall post wage rates at site(s) of Work in prominent, easily accessible places where they can be seen by all workers.

(e) Overtime Requirements: No Contractor, Subcontractor, or Sub-subcontractor contracting for any part of contract Work which may require or involve the employment of laborers or mechanics shall require or permit any laborer or mechanic in any workweek in which he is employed on such Work, to work in excess of forty hours such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times his basic rate of pay for all hours in excess of forty hours in such workweek.

2. APPRENTICES

(a) Locally Funded Projects: Apprentices will be permitted to work as such when they are listed on a payroll as an apprentice. Apprentices are to be paid a minimum of 60 percent of journeymen wages indicated. At no time shall a journeyman supervise more than one (1) apprentice.

(b) Employees who are not under the apprentice program shall be paid the minimum wage rate provided in contract per individual classification or for Work actually performed.

(c) Federally Funded Projects: Apprentices and Trainees will be permitted to work as such only when they are registered, individually, under a bonafide Apprenticeship or Trainee program registered with a State Apprenticeship or Training Agency which is recognized by Bureau of Apprenticeship and Training, United States Department of Labor, or, if no recognized Agency exists, under a program registered with Bureau of Apprenticeship and Training, United States Department of Labor. The allowable ratio of Apprentices or Trainees to journeymen in any craft classification shall not be greater than the ratio permitted to Contractor as to Contractor's entire work force under the registered program. Employee listed on a payroll at an Apprentice or Trainee wage rate, who is not registered as above, shall be paid the wage rate provided in Contract for Work employee actually performed. Contractor, Subcontractor, or Sub-subcontractor shall furnish to the Authority written evidence of registration of his program for Apprentice and Trainees as well as of the appropriate ratios and wage rates, for the

area of construction prior to using any Apprentices or Trainee on this Contract.

3. WITHHOLDING OF PAYMENTS

The Authority may withhold or cause to be withheld from Contractor as much of the accrued payments as necessary to pay laborers and mechanics employed by Contractor, Subcontractors, or Sub-subcontractors the amount of wages required to comply with the Contract. In the event of nonpayment of wages to laborers or mechanics working on the site of the Work of this Contract, the Authority may, after Written Notice to Contractor, take such action as may be necessary to cause suspension of any further payments or advance of funds to Contractor until such violations have ceased and until restitution has been made.

4. PAYROLLS

(a) Contractor shall keep records showing:

(1) the name and occupation of each worker employed by the contractor or subcontractor(s) in the construction of the public work; and

(2) the actual per diem wages paid to each worker.

(b) The record shall be open at all reasonable hours to inspection by the officers and agents of the Authority as requested. Contractor will be responsible to provide copies of records as requested by the Authority within two (2) working days. Payrolls relating to this Work shall be maintained during term of Contract and preserved for a period of three (3) years thereafter by Contractor for all laborers and mechanics working on the Work.

(c) Confirmed Disciplinary action taken by Contractor against employees who provide information during an interview or investigation, by the Authority, on wages received, will result in a six months revocation of their right to bid on other Authority projects.

5. COMPLAINTS AND PENALTIES

A public body awarding a contract, and an agent or officer of the public body, shall, take cognizance of complaints of all violations of Chapter 2258 Texas Government Code Title 10 committed in the execution of the contract; and withhold money forfeited or required to be withheld under this chapter from the payments to the contractor under the contract. A contractor or subcontractor(s) who violates this section shall pay to the political subdivision on whose behalf the contract is made, \$60 for each worker employed for each calendar day or part of the day that the worker is paid less than the wage rates stipulated in the contract. A public body shall use any money collected under this section to offset the costs incurred in the administration - of this chapter.

6. AREA PRACTICE

(a) Highway Heavy Construction Wage Rates shall be used on this Project unless Building Construction Rates are included as follows.

(b) Building Construction Wage Rates shall be used when the following conditions are met.

(c) Building Construction generally is the construction of sheltered enclosures with walk-in access for the purpose of housing persons, machinery, equipment or supplies. It includes all construction of such structures, the installation of utilities and the installation of equipment, both above and below grade level, as well as incidental grading, utilities and paving. Additionally, such structures need not be "habitable" to be Building Construction. The installation of heavy machinery and/or equipment does not generally change the project's character as a building.

(d) Building Construction Wage Rates determination shall include all construction necessary to complete a facility regardless of the number of contracts involved so long as all contracts awarded are closely related in purpose, time and place. Demolition or site work preparatory to Building Construction is considered a part of the building Project for wage rate determination purposes.

(e) Incidental Building Construction shall include Highway Heavy Construction items when the Project cost for the incidental items are less than 20 percent, except when the Building Construction is less than 4 percent of the Project cost the Highway Heavy Construction Rates shall apply.

(f) Multiple Classification: A multiple classification shall be used if Highway Heavy Construction items are more than 20 percent of the Project cost.

7. WAGE RATES

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.80 for calendar year 2020 applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.80 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2020. If this contract is covered by the EO and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must pay workers in that classification at least the wage rate determined through the conformance process set forth in 29 CFR 5.5(a)(1)(ii) (or the EO minimum wage rate, if it is higher than the conformed wage rate). The EO minimum wage rate will be adjusted annually. Please note that this EO applies to the above-mentioned types of contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but it does not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(2)-(60). Note: Executive Order (EO) 13706, Establishing Paid Sick Leave
for Federal Contractors applies to all contracts subject to the
Davis-Bacon Act for which the contract is awarded (and any

contract is covered by the EO, the contractor must provide
employees with 1 hour of paid sick leave for every 30 hours
they work, up to 56 hours of paid sick leave each year.
Employees must be permitted to use paid sick leave for their
own illness, injury or other health-related needs, including

like family to the employee) who is ill, injured, or has other
health-related needs, including preventive care; or for reasons
resulting from, or to assist a family member (or person who is
like family to the employee) who is a victim of, domestic
violence, sexual assault, or stalking. Additional information
on contractor requirements and worker protections under the EO
is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within
the scope of the classifications listed may be added after
award only as provided in the labor standards contract clauses
(29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union

CAPITAL METROPOLITAN TRANSPORTATION AUTHORITY

average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
