The Contractor shall be liable for his subcontractor's insurance coverages of the types and in the amounts stated above, and shall furnish the Authority with copies of such Certificates of Insurance. If any insurance coverage required to be provided by the Contractor is canceled, terminated, or modified so that the required insurance coverages are no longer in full force and effect, the Authority may terminate this contract or obtain insurance coverages equal to the required coverage, the full cost of which will be the responsibility of the Contractor and shall be deducted from any payment due Contractor.

(d) Except for gross negligence or willful misconduct of the Authority, the Contractor and all of its insurers shall, in regard to the above stated insurance, waive all rights of recovery or subrogation against the Authority and the Authority's insurance companies.

(e) Except for gross negligence or willful misconduct of the Authority, the Contractor shall indemnify and hold harmless the Authority and its agents, successors, and assigns from and against all injury, loss, damage, or claims of liability, including attorney's fees and disbursements, to any person (including employees of the Authority; Contractor's employees and Contractor's subcontractors and their employees; associates and other persons assisting the Contractor on a paid or voluntary basis) for injury to or death of the person. The Contractor shall also indemnify and hold harmless the Authority and its agents, successors, and assigns from any loss of or damage to property arising from, related to, or in connection with any negligent act, error or omission of the Contractor during the performance of this contract and the use of the premises incident to the contract.

(g) The Authority will give the Contractor prompt notice in writing of the institution of any suit or proceeding and permit the Contractor to defend same and will give all needed information to do so. The Contractor shall similarly give the Authority immediate notice of any claim arising out of the performance of the contract. (i) All insurance required to be maintained or provided by the Contractor shall be with companies and through policies approved by the Authority. The Authority reserves the right to inspect in person, prior to the commencement of the contract work, all of the Contractor's insurance policy required under this contract.

Alternatively, the Contractor is requested to submit evidence of a commitment from an insurance company or companies, or a duly licensed agent, that the Contractor has made arrangements for the required insurance. If the bid or proposal is considered for award, and the Contractor has not previously furnished either the proof of insurance or evidence of commitment, the Contractor will be required to provide proof of the insurance or evidence of a commitment within five (5) days of request. If the Contractor is awarded the bid, and has submitted evidence of commitment rather than proof of the required insurance, the Contractor must furnish proof of the required insurance within five (5) days of the award of the contract. Certificate of Insurance must indicate the contract number and description. The insurance certificate should be mailed to the attention of the buyer who made the request.

(k) The above requirements only represent the minimum insurance coverage acceptable to the Authority and these requirements are not intended to represent the maximum risk involved or the maximum liability of the Contractor.

(l) The Contractor shall be responsible for setting its own requirements, if any, for the kind and amounts of insurance to be carried by its subcontractors in excess of the insurance required by the Authority. No delay in the work caused by the Contractor's enforcement of its subcontractor's insurance requirements shall be excusable delay in the contract.

Failure to do so shall be at the offeror’s risk.

(b) The Authority may, at any time, by written order, make changes within the general scope of the contract in the services to be performed. If such changes cause an increase or decrease in the Contractor’s cost of, or time required for, performance of any services under this contract, whether or not changed by any order, an equitable adjustment shall be made and the contract shall be modified in writing accordingly and signed by both parties. Any claim of the Contractor for adjustment under this clause must be asserted in writing within thirty (30) days from the date of receipt by the Contractor of the notification of change unless the Contracting Officer grants a further period of time before the date of final payment under the contract.

If the failure to perform is caused by the default of a subcontractor and if such default arises out of causes beyond the control of both the Contractor and subcontractor and without the fault or negligence of either of them, the Contractor shall not be liable for any excess costs for failure to perform, unless the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery schedule.
(d) If this contract is terminated as provided in paragraph (a) of this clause, the Authority, in addition to any other rights provided in this clause, may require the Contractor to transfer title and deliver to the Authority the entire contract and all work and materials to which the Contractor is entitled under terminated orders or subcontracts to the Authority. All designs, drawings, specifications, notes, documents, reports, data, graphs, and other works developed in the performance of this contract shall become the sole property of the Authority and may be used in any manner by the Authority and without additional compensation to the Contractor. The Authority shall be considered the "person for whom the work was prepared" for the purpose of authorship in any copyrightable work under Section 101(b) of Title 17, United States Code. The Contractor shall perform all work hereunder in compliance with all applicable federal, state, and local laws and regulations. The Contractor shall use only licensed personnel to perform work required by law to be performed by such personnel.

20. INSPECTIONS AND APPROVALS

(a) All work performed by Contractor or its subcontractors or consultants shall be subject to the inspection and approval of the Authority at all times, but such approval shall not relieve Contractor of responsibility for the proper performance of the Services. However, no adjustment shall be made under this clause for any suspension or delay to the extent (1) that performance would have suspended or delayed by any other cause, including the fault or negligence of the Contractor, or (2) for which an equitable adjustment is provided for or excluded under any other provision of this contract.

(c) No claim under this clause shall be allowed (1) for any costs incurred more than twenty (20) days before the Contractor has notified the Authority in writing of the act or failure to act involved (but this requirement shall not apply to a claim resulting from a suspension order), and (2) unless the claim, in an amount stated, is asserted in writing as soon as practicable after the termination of such suspension or delay, but not later than the date of final payment. Any willful violation of these provisions, creation of a Substantial Interest or existence of a Conflict of Interest with the express or implied knowledge of Contractor shall render this contract voidable by the Authority.

(e) In accordance with section 176.006, Texas Local Government Code, "vendor" is required to file a conflict of interest questionnaire within seven business days of becoming aware of a conflict of interest under Texas law. The conflict of interest questionnaire can be obtained from the Texas Ethics Commission at www.ethics.state.tx.us. The questionnaire shall be sent to the Authority's Contract Administrator.

All associated records required by this contract or by law shall be maintained for three (3) years after completion of a project, or until an audit is completed and all questions, claims, disputes, negotiations, and other actions arising therefrom are resolved, whichever occurs last. Additional retention periods may be required as appropriate and stipulated in writing.

38. **EXAMINATION AND RETENTION OF RECORDS**

(a) The Authority and its representatives shall have audit and inspection rights described below.

(b) If this is a cost-reimbursement, incentive, time and materials, labor hour, or price redeterminable contract, or any combination thereof, the Contractor shall maintain, and the Contracting Officer and its representatives shall have the right to examine, all books, records, documents, and other evidence and accounting procedures and practices sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. Such right of examination shall include inspection at all reasonable times at the Contractor’s plants, or such parts thereof, as may be engaged in or maintain records in connection with the performance of this contract.

(c) If the Contractor submitted certified cost or pricing data in connection with the pricing of this contract or if the Contractor’s cost of performance is relevant to any change or modification to this contract, the Authority and its representatives shall have the right to examine all books, records, documents, and other data of the Contractor related to the negotiation, pricing, or performance of such contract, change, or modification for the purpose of evaluating the costs incurred and the accuracy, completeness, and currency of the cost or pricing data submitted. The right of examination shall extend to all documents necessary to permit adequate evaluation of the costs incurred and the cost or pricing data submitted, along with the computations and projections used therein.

(d) The materials described in (b) and (c), above, shall be made available at the office of the Contractor at all reasonable times for inspection, audit, or reproduction until the expiration of three (3) years from the date of final payment under this contract, except that if this contract is completely or partially terminated, the records relating to the work terminated shall be made available for a period of three (3) years from the date of any final settlement.

(e) The Contractor shall insert a clause containing all the provisions of this clause, including this paragraph (e), in all subcontracts exceeding $25,000 hereunder, altered to reflect the proper identification of the contracting parties and the Authority under the prime contract.

(f) Notwithstanding anything to the contrary herein, J.P. Morgan acknowledges the Authority’s audit rights; with any such activity to be mutually agreed upon as to time and scope and shall be at the Authority’s expense. J.P. Morgan does not permit general inspections or general third party audits due to the confidentiality and security obligations related to financial and customer data required of financial institutions, however, the Bank can make the Authority’s account and transaction records available for inspection.

(g) The Authority acknowledges that J.P. Morgan is subject to a documentation retention policy which governs the retention period for each particular form of documentation and other information; this policy is largely dictated by law and regulation of the various jurisdictions in which J.P. Morgan does business. The documentation retention policy will often require retention of documentation and information after the termination of J.P. Morgan’s relationship with the relevant customer. The period of retention beyond termination of the relationship will be dependent on the type of information and will be governed by the documentation retention policy.

39. **EXCUSABLE DELAYS**

(a) Except for defaults of subcontractors at any tier, the Contractor shall not be in default because of any failure to perform this contract under its terms if the failure arises from causes beyond the control and without the fault or negligence of the Contractor. Examples of these causes are (1) acts of God or of the public enemy, (2) acts of the Authority in either its sovereign or contractual capacity, (3) fires, (4) floods, (5) epidemics, (6) quarantine restrictions, (7) strikes, (8) freight embargoes, and (9) unusually severe weather. In each instance, the failure to perform must be beyond the control and without the fault or negligence of the Contractor. “Default” includes failure to make progress in the work so as to endanger performance.

(b) If the failure to perform is caused by the failure of a subcontractor at any tier to perform or make progress, and if the cause of the failure was beyond the control of both the Contractor and subcontractor and without the fault or negligence of either, the Contractor shall not be deemed to be in default, unless –

- (1) the subcontracted supplies or services were obtainable from other sources;
- (2) the Authority ordered the Contractor in writing to purchase these supplies or services from the other source; and
- (3) the Contractor failed to comply reasonably with this order.

(c) Upon the request of the Contractor, the Authority shall ascertain the facts and extent of the failure. If the Contracting Officer determines that any failure to perform results from one or more of the causes above, the delivery schedule or period of performance shall be revised, subject to the rights of the Authority under the Termination clause of this contract.

40. **LOSS OR DAMAGE TO PROPERTY**

The Contractor shall be responsible for any loss or damage to property including money securities, merchandise, fixtures and equipment belonging to the Authority or to any other individual or organization, if any such loss or damage was caused...
by Contractor or any employee thereof, while such employee is on the premises of the Authority as an employee of the Contractor.

41. CONTRACTOR CONTACT/AUTHORITY DESIGNEE

The Contractor shall provide the Authority with a telephone number to ensure immediate communication with a person (not a recording) anytime during contract performance. Similarly, the Authority shall designate an Authority representative who shall be similarly available to the Contractor.

42. QUALITY ASSURANCE

A periodic review of the Contractor's scheduled work will be performed by the Authority. If work is deemed incomplete or unacceptable in any way, the Authority will determine and cause and require the Contractor to take corrective measures in accordance with the terms of the contract.

43. NONWAIVER OF RIGHTS

Failure or delay of the Authority (a) to insist in any one or more instances upon performance of any of the terms and conditions of this contract or (b) to exercise any rights or remedies, or (c) to approve the Services shall not release Contractor from any of its obligations under this contract and shall not be construed as a waiver or relinquishment of the Authority's rights (a) to require strict performance of Contractor's obligations or (b) to require the future performance of any terms and conditions, but the Contractor's obligations with respect to such performance shall continue in full force and effect.

44. INTERPRETATION OF CONTRACT – DISPUTES

All questions concerning interpretation or clarification of this contract or the acceptable fulfillment of this contract by Contractor shall be immediately submitted in writing to the Authority's Contracting Officer for determination. All determinations, instructions, and clarifications of the Contracting Officer shall be final and conclusive unless the Contractor files with the Capital Metro President/CEO within thirty (30) days after the Authority notifies Contractor of any such determination, instruction or clarification, a written protest, stating in detail the basis of the protest. The President/CEO shall consider the protest and notify the Contractor within two weeks of the protest filing of his final decision. The President/CEO’s decisions shall be conclusive subject to judicial review. Notwithstanding any disagreement the Contractor may have with the decisions of the President/CEO, Contractor shall proceed with the Services in accordance with the determinations, instructions, and clarifications of the President/CEO. Contractor shall be solely responsible for requesting instructions or interpretations and liable for any cost or expenses arising from its failure to do so. Contractor's failure to protest the Contracting Officer's determinations, instructions, or clarifications within the thirty (30) day period shall constitute a waiver by Contractor of all of its rights to further protest.

45. TOBACCO FREE WORKPLACE:

(a) Definitions:

(1) **Tobacco products:** Tobacco products include cigarettes, cigars, pipes, snuff, snus, chewing tobacco, smokeless tobacco, dipping tobacco and any other non-FDA approved nicotine delivery device.

(2) **Capital Metro Property:** The following tobacco free workplace policy refers to all Capital Metro owned or leased property. Note that this includes all buildings, facilities, work areas, maintenance facilities, parking areas and all Authority owned vehicles.

(b) **Policy:**

Capital Metro is committed to providing a safe and healthy worksite and promoting the health and well-being of its employees. Personal health hazards related to tobacco products are numerous and have been well documented. The health hazards related to tobacco use impact both users and non-users who are exposed to second-hand smoke. We care about the health of each and every employee, and our intent is to provide all employees and visitors with a work environment conducive to good health.

(1) The purpose of this policy is to promote a healthy environment for all employees and visitors by:

(i) Protecting employees and visitors from second hand smoke

(ii) Encouraging tobacco users to quit tobacco use

(iii) Lowering health plan costs

(2) Tobacco use is not permitted at any time, on Capital Metro owned or leased property, including personal vehicles parked in Capital Metro parking lots.

(3) There will be no designated tobacco use areas on Capital Metro owned or leased property, since no level of tobacco exposure is considered to be safe.

(4) Littering of tobacco-related products on the grounds or parking lots is also prohibited.

(5) Capital Metro strives to be a good neighbor in the community, and as such we discourage the use of tobacco products on the property of nearby businesses and residences.

46. ORDER OF PRECEDENCE

In the event of any inconsistency between the provisions of the solicitation (including any resulting contract), the inconsistency shall be resolved by giving precedence in the following order: (1) the Schedule; (2) Solicitation Instructions and Conditions; (3) Contractual Terms and Conditions; (4) other provisions of the contract whether incorporated by reference or otherwise; (5) the specifications or statement of work; and (6) Contractor's Agreements.

47. GOVERNING LAW

The rights, obligations, and remedies of the parties shall be governed by the laws of the State of Texas. Whenever there
is no applicable state statute or decisional precedent governing the interpretation of, or disputes arising under or related to, this contract, then federal common law, including the law developed by federal boards of contract appeals, the United States Claims Court (formerly the Court of Claims), and the Comptroller General of the United States, shall govern. Venue for any action shall lie exclusively in Travis County, Texas. This is the complete agreement between the parties. If any provision of the contract is found to be invalid or unenforceable, the remaining provisions shall not be impaired.

48. **VARIATION IN ESTIMATED QUANTITY**

If the quantity of a unit-priced item in this contract is an estimated quantity and the actual quantity of the unit-priced item varies more than 10 percent (10%) above or below the estimated quantity, an equitable adjustment in the contract price shall be made upon demand of either party. The equitable adjustment shall be based upon any increase or decrease in costs due solely to the variation above 110 percent (110%) or below 90 percent (90%) of the estimated quantity. If the quantity variation is such as to cause an increase in the time necessary for completion, the Contractor may request (in writing) an extension of time to be received by the Contracting Officer within 10 days from the beginning of the delay, or within such further period as may be granted by the Contracting Officer before the date of final settlement of the contract. Upon the receipt of a written request for an extension, the Contracting Officer shall ascertain the facts and make an adjustment for extending the completion date as, in the judgment of the Contracting Officer, is justified.

49. **ORGANIZATIONAL CONFLICT OF INTEREST (OCI)**

(a) This contract may task the Contractor to prepare or assist in preparing work statements that directly, predictably and without delay are used in future competitive acquisitions. The parties recognize that by the Contractor providing this support a potential conflict of interest arises as defined by FAR 9.5.

(b) For the purposes of this clause, the term “contractor” means the contractor, its subsidiaries and affiliates, joint ventures involving the contractor, any entity with which the contractor may hereafter merge or affiliate and any other successor or assignee of the contractor.

(c) The Contractor acknowledges the full force and effect of this clause. It agrees to be bound by its terms and conditions and understands that violation of this clause may, in the judgment of the Contracting Officer, be cause for Termination for Default. The Contractor also acknowledges that this does not represent the sole and exclusive remedy available to the Authority in the event the Contractor breaches this or any other Organizational Conflict of Interest clause.

50. **NO THIRD PARTY BENEFICIARIES**

No term or provision of this Contract is intended to be, or shall be, for the benefit of any person, firm, organization, or corporation for a party hereto, and no such other person, firm, organization or corporation shall have any right or cause of action hereunder.

1. INTRODUCTION

(a) Capital Metropolitan Transportation Authority ("Capital Metro" or "the Authority") is a public agency responsible for providing mass transit service within the City of Austin and the surrounding communities of Leander, Lago Vista, Jonestown, Manor, San Leon, Volente, and Point Venture, as well as the unincorporated area of Travis County within Commissioner Precinct 2 and the Anderson Mill area of Williamson County.

(b) Capital Metro began in January 1985, and assumed operation of the transit services provided by the city-owned Austin Transit System which served only within Austin's city limits. The Authority's current service area encompasses a total of approximately 534 square miles with operating and capital expenses funded through a one-cent local sales tax, federal and state grants and fare box and other revenue. Capital Metro's 2014 fiscal year revenues were $268 million. Revenues for the 2015 fiscal year are approximately $280 million (unaudited). The portfolio balance at 9/30/2015 was approximately 204.5 million and invested in local government investment pools and managed accounts. It is anticipated that Capital Metro's portfolio will increase over the coming years.

(c) The Contractor shall be a qualified financial institution for depository services for demand deposits of Capital Metro. A "qualified financial institution" is an institution authorized to do business in Texas and having a main office or branch office physically located within Capital Metro's service area limits as stated above, and is a member of the Federal Deposit Insurance Corporation. The Contractor shall be a banking institution which has a Shesunoff rating of at least 36 for the main office of the institution or the headquarters bank of a bank holding company or branched organization and is able to provide the services required by Capital Metro. Other ratings designating qualified financial institutions are Standard & Poor's (Ratings must include senior debt, subordinated debt, and long term deposit); Moody's & Pitch (Ratings must include senior debt, subordinated debt, and long term deposit); or Fitch Investors Services (Ratings must include senior debt, subordinated debt, and long term deposit).

(d) The Contractor shall submit a transition and implementation plan to the Capital Metro Project Manager.

2. DESCRIPTION OF REQUIRED ACCOUNTS

Following is a list of the accounts currently required by Capital Metro. Capital Metro reserves the right to add or subtract accounts as necessary to meet its needs. To minimize idle account funds, Capital Metro uses a zero balance account (ZBA) structure. Capital Metro currently retains an investment management firm, which is authorized to execute investment transactions on Capital Metro's behalf and to correspond directly with the depository bank.

(a) Capital Metro Operating Account: This account serves as Capital Metro's primary concentration account for operating funds. An overnight sweep arrangement is required for this account. This account is debited/credited with the following types of transactions:

1. Deposits of currency
2. Image direct deposit
3. Deposits of investment maturities and sales
(4) Automatic transfers to/from all zero balance accounts

(5) Incoming wires from sales tax and other receipts

(6) Automated Clearing House (ACH) transfers (settlement for vendor direct payments, payroll deductions, etc)

(7) Return item debits

(b) Capital Metro Accounts Payable Account: This controlled disbursement account is used to pay all Capital Metro vendors and to reimburse petty cash funds. It must be funded daily by ZBA transfer from Capital Metro’s concentration account so that a zero balance is achieved at close of business each day. Checks are issued and mailed daily. This account requires positive-pay reconciliation and digital imaging.

(c) Capital Metro Payroll Account: This account is a Demand Deposit Account to pay Capital Metro employees that are not on direct deposit and is funded by automatic dollar transfer so that a zero balance is achieved at the close of business each day. Although the payroll is processed on a biweekly basis, manual checks can be issued and mailed daily. This account requires positive-pay reconciliation and digital imaging.

3. REQUIRED DEPOSITORY SERVICES

The following services are currently required by Capital Metro or expected to be needed in the future. Estimated volumes of services are listed in Exhibit A-1.

(a) Bank Statements: Each account shall cycle monthly for statement purposes. All accounts must be included in a monthly account analysis. On-line statements which can be reviewed, downloaded and printed are preferable to hard copy.

(b) Daily BAI File: Capital Metro requires an FTP site that contains all debit and credit transactions that posted to all Capital Metro accounts in one file in standard BAI format on a daily balance by 8:00 A.M.

(c) Deposit Services: Capital Metro contracts with an outside armored car carrier to deliver most deposits to the depository bank. The depository bank must have a secure unloading area that accommodates armored vehicles. Capital Metro requires encoded deposit slips and requires a duplicate for its internal records. Capital Metro collects, sorts, counts and prepares currency and coin deposits of passenger fares daily. Coins shall be submitted to the bank in bags and are not mixed. Partially filled bags are marked as such.

(d) Returned Items: All checks returned unpaid for insufficient funds must be presented for payment a second time before they are returned to Capital Metro for charge-back. All return items must be charged to the account of original deposit. Capital Metro shall make every attempt to ensure that endorsements conform to the depository bank’s requirements. When Capital Metro finds that a check has been charged back to the incorrect account, Capital Metro shall request that the charge be reversed and the proper account charged.

(e) Check Disbursement Services: On all controlled disbursement accounts, first presentation reporting via balance reporting must be available by 8 a.m. with a second presentation reporting by 10:00 a.m. Capital Metro requires a Texas controlled disbursement point. Funding shall be daily by ZBA transfer from the Capital Metro concentration account so as to generate a zero balance at close of business each day. Checks drawn on the controlled disbursement accounts shall be payable at the main depository bank in Austin.

(f) Positive Pay: Capital Metro requires positive pay services on all controlled disbursement accounts and the payroll accounts. Capital Metro shall transmit its issue information as checks are written via the Internet. Ability to void checks from the issue file without stop payment fees is required.

(g) Paid Checks: Capital Metro requires prompt access to current-month paid check information for several accounts via the Internet. Capital Metro requires that each month’s paid check images, front and back, for the controlled disbursement and payroll accounts be available in digital format. Images must be capable of being printed on laser printers and must be of high quality and admissible as legal documents.

(h) Electronic Fund Transfer (EFT) Services: Capital Metro requires confirmation of wire credits and wire initiation. On-line repetitive, semi-repetitive and non-repetitive initiation capability as well as confirmation capability is required. Password security and secondary authorization capability for all wires is required.

(i) EFT Services for Payroll: Capital Metro processes payroll in-house and will electronically transmit ACH transactions conforming to the NACHA format containing employee direct deposit information. Transactions will be transmitted no earlier than 12 noon each Tuesday, unless there is a Monday holiday, with an effective date of the opening of business on the following Friday morning.

(j) Incoming/Outgoing ACH Credits/Debits: Capital Metro originates ACH debits to pay certain vendors and receives ACH credits each month, including State sales tax and federal grants. Non-originated ACH debits may also be received each month. A product allowing initiation of ACH transactions in standard ACH and CCD+ format will be required.

(k) Balance/Transaction Reporting: Capital Metro requires on-line balance reporting including current day and previous day balance and transactions for selected accounts, current day early presentment information on controlled disbursement accounts, current day detail ACH

Page 2 of 5
credits and debits on specific accounts, current day incoming and outgoing wire transfer credits and debits on the operating account as the information becomes available.

(i) Account Analysis: Capital Metro requires monthly account analysis statements on all individual accounts and a totals statement for all accounts combined. Statements must show average ledger, collected and investable balances; earnings credit rate and earnings credit; and for each service rendered, the service descriptor, activity volume, unit price and total price. Capital Metro requests that all fees for which the depository expects compensation be included on the account analysis statement. Statements shall be available within 10 days after the month end via hard copy or Internet for viewing, downloading and printing. Capital Metro’s operating account is debited for analysis fees.

(m) Securities Transfer and Safekeeping: Currently, Capital Metro contracts with an outside investment manager to manage the purchase and sale of its securities. The depository bank would only serve as the holding and transfer agent for its securities. All transfers must be executed delivery versus payment. Instructions shall be given by fax. Delivery of instructions on-line is required.

(1) Capital Metro requires that safekeeping receipts be issued within two business days following receipt of securities. Monthly statements of holdings are required and shall be issued within ten (10) working days after the close of the business month. A copy of the statement shall also be sent to Capital Metro’s outside investment manager. All book entry securities shall be listed at the Federal Reserve under the depository bank’s customer account. Securities shall not be commingled with bank assets. The bank shall keep accurate records specifically identifying which investments belong to Capital Metro and Capital Metro shall have access to these records at all times. Online access to safekeeping records is required. Securities that serve as collateral for repurchase agreements with dealers must be delivered to a third party custodian acceptable to the Capital Metro. Pursuant to State law, the custodian shall be:

(i) A state or national bank that has a main office or branch office within Texas, and which has a capital stock and permanent surplus of not less than $5 million; or

(ii) A Texas Treasury Safekeeping Trust Company;

(iii) A Federal Reserve Bank or its branches.

(2) As of September 30, 2015, Capital Metro’s investment portfolio was held in local government investment pools and managed accounts. In the future, it is anticipated that there may be a need for security transfers and safekeeping.

(n) Check Cashing: All Capital Metro employees not on direct deposit will be permitted to cash their Capital Metro payroll checks at any of the banks’ offices at no charge, including those who do not maintain accounts. Capital Metro’s petty cash custodian(s) shall also cash their reimbursement checks at any of the banks’ offices at no charge. The bank’s standard check cashing guidelines regarding proper identification shall apply to all employees.

(o) Overdrafts: The Contractor must have informal and/or formal procedures for handling overdrafts on Capital Metro's aggregate account balances. An overdraft facility shall be utilized as a back-up facility and Capital Metro does not intend to use it as a source of credit.

(1) It is Capital Metro’s policy to avoid ledger overdrafts at all times but they may occur occasionally. The depository bank shall be requested to provide an overdraft facility for this purpose. The terms of the overdraft facility shall be negotiated by the parties and inserted in the depository contract prior to execution. The ledger overdraft fee listed in Exhibit A-1 shall be followed.

(2) Collected overdrafts may occur from time to time due to the unpredictable level of float. Capital Metro desires that no interest charges for overnight collected balance overdrafts in any Capital Metro account be incurred unless a collected deficit occurs in Capital Metro’s total average collected balance position for an entire month.

(3) Due to the nature of its business, Capital Metro may create daylight overdrafts. The Contractor shall have a daylight overdraft policy and base any costs on fees listed in Exhibit A-1.

(p) Deposit Bags: Capital Metro utilizes disposable deposit bags for both coin and bill currency. The Contractor shall use disposable bags.

(q) Deposit Processing: Each business day Capital Metro’s contracted armored car service will deliver, for deposit, approximately eighteen (18) plastic bank bags consisting of coin and bill currency. Each shall contain its own deposit slip.

(r) Miscellaneous Deposits of Checks and Cash: In addition to the deposits delivered directly to the bank, Capital Metro has contractors and Transit Store employees collecting operating revenue. Revenues collected by contractors are delivered directly to Capital Metro for
counting and are processed in the same manner as stated in paragraph (q) above.

(s) Errors: Bank errors resulting in lost interest to Capital Metro shall be reimbursed by the depository to Capital Metro at the effective interest rate which existed during the term of the error. The method of reimbursement shall be agreed upon by Capital Metro and the depository. This must be recapped in the monthly account analysis.

(t) Service Charges and Payments: All fees, except pass-through charges, shall be fixed for the initial three-year term. Pass-through charges are defined as those incurred directly by the depository, such as Federal Reserve wire and check processing charges. If the contract is renewed for the additional two, one-year terms, fees, except pass-through charges, may be renegotiated upon terms acceptable to both parties. However, in no case shall the aggregate fee increase exceed the Consumer Price Index (CPI) for the twelve-month period for which published CPI data is available immediately prior to the execution of the extension option. All new fees would be fixed for the term of the extension.

(1) During the term of the contract, any increase in pass-through charges may, upon approval of Capital Metro, be passed on to Capital Metro upon thirty (30) days written notice to Capital Metro. The depository shall provide documentation to Capital Metro to substantiate any increase in pass-through charges. Any decrease in pass-through charges shall be passed on to Capital Metro within thirty (30) days of implementation.

(u) Service Charge Calculations and Invoicing: Capital Metro's depository relationship shall be on a net fee basis; with net fees defined as total account analysis fees less earnings on available balances. Earnings shall be calculated on available balances using the depository bank's current earnings allowance rate, which shall be the money market basis indicated on the last page of the Price Quotation Sheet, Exhibit A-1. Available balances are understood to be collected balances less the reserve requirement, while collected balances are understood to be ledger, or gross, balances less uncollected funds. For reference purposes, Capital Metro's average daily collected balance total for all accounts for the twelve months ended December 31, 2015, was $490,514.

(1) The deduction for reserve requirements shall be calculated on Capital Metro's total aggregate collected balance position for the month.

(2) Only fee categories listed in Exhibit A-1 shall be acceptable in the monthly account analysis, except service modifications agreed to by both parties. Capital Metro shall accept the monthly account analysis as its invoice if fee breakdowns are clearly indicated. Capital Metro may request additional breakdowns of charges from time to time.

(v) Service Charge Payment: No later than ten (10) business days after receipt of the account analysis, payment shall be made by a direct debit to Capital Metro's Operating Account in the amount of net fees calculated for the month. The only service charges that may be charged directly to Capital Metro's account are the total monthly fees that appear on each monthly account analysis. Wire fees may not be deducted from wire proceeds, but must be charged against the analysis. Out-of-pocket expenses, such as check or deposit slip orders and deposit bags, must be charged against the account analysis.

(1) The parties shall agree that overcharges and undercharges discovered in subsequent months shall be corrected in the next month's account analysis.

(w) Collateral Requirements: All the Capital Metro funds must be collateralized by the depository bank in accordance with Texas State law (Chapter 2257 – Collateral for Public Funds). The complete text of Chapter 2257 is contained in the Capital Metro's Investment Policy provided as Exhibit H.

(1) According to Texas State law, the depository Contractor shall be required to deposit and pledge approved securities having a market value equal to 100% of the value of Capital Metro's funds on deposit, within five (5) days after award of the depository contract. Securities pledged to Capital Metro must be held at a third party banking institution approved by Capital Metro or in a Treasury Direct account in the name of Capital Metro with the Federal Reserve Bank. Approved securities shall mean U.S. Treasury and agency securities having a maturity of less than five (5) years.

(2) Upon approval of Capital Metro's Chief Financial Officer, or designee, the depository bank may substitute approved securities so long as the total amount of securities pledged is adequate. Likewise, any excess shall be delivered to the depository bank upon approval of Capital Metro's Chief Financial Officer, or designee, when not required as part of the collateral securities.

(3) The depository bank shall provide monthly reports valuing the approved securities, showing the current market value plus accrued interest through the date of valuation. Whenever it is determined by Capital Metro's Chief Financial Officer, or designee, that collected funds on deposit are not fully covered by the approved securities, the depository bank shall immediately deposit and pledge additional approved securities in an amount sufficient to restore collateral to the required level.

(4) The use of a surety bond to meet collateral requirements will be considered providing the bonding firm is acceptable to Capital Metro.

(5) Title 12 of U.S. Code Paragraph 1823(e) of FIRREA requires incorporating the following conditions in a collateral agreement to protect Capital Metro's security interest in a collateral deposit:

(i) The agreement must be in writing.

(ii) The agreement must be executed by the depository institution and the depository entity making
the claim contemporaneously with the acquisition of the asset.

(ii) The Board of Directors or the loan committee of the institution must approve the agreement.

(iv) The agreement has been an official record of the institution continuously since its execution.

(5) The signed collateral agreement incorporating the above conditions must be presented to Capital Metro prior to the deposit of any Capital Metro funds.

(7) Capital Metro has determined that the minimum level of permanent depository collateral to be pledged will be one of the following:

(i) $100,000 coupled with a sweep product. A sweep arrangement must be fully automated and must occur when total end-of-day collected balances exceed a preselected threshold balance. Only money market funds consistent with Capital Metro’s investment policy are acceptable sweep instruments. All fees associated with a sweep arrangement must be quoted on a basis point spread from the Federal Funds Rate.

(ii) $650,000 if a sweep product is not available.

(x) Services Modifications: By mutual agreement, the parties may modify or change services used. It is anticipated that the range of services described in this scope of services shall be used for the contract term. However, Capital Metro may discontinue any service after 30 days written notice to the depository bank.
