If the quantity of a unit-priced item in this Contract is an estimated quantity and the actual quantity of the unit-priced item varies more than thirty percent (30%) above or below the estimated quantity, an equitable adjustment in the Contract price shall be made upon demand of either party. The equitable adjustment shall be based upon any increase or decrease in costs due solely to the variation above one hundred and thirty ten percent (130%) or below seventy percent (70%) of the estimated quantity. If the quantity variation is such as to cause an increase in the time necessary for completion, the Contractor may request (in writing) an extension of time to be received by the Contracting Officer within ten (10) days from the beginning of the delay, or within such further period as may be granted by the Contracting Officer before the date of final settlement of the Contract. Upon the receipt of a written request for an extension, the Contracting Officer shall ascertain the facts and make an adjustment for extending the completion date as, in the judgment of the Contracting Officer, is justified.
